**THE SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY**

*Completion of the architects' model has brought the realization of a decades-long dream that much closer for supporters of this \$42.5 million project to be located on the corner of Chautauqua and Timberdell on the University of Oklahoma's south campus. Formal groundbreaking is planned for fall 1995. The \$37.5 million structure and a \$5 million operating endowment are being funded by a \$22.5 million private fund campaign and \$20 million in bonds from the state of Oklahoma and the city of Norman.*
