

SOONER

SUMMER 2021

NE

A woman with freckles, wearing a black baseball cap with a white mesh band, sunglasses, and a light pink t-shirt, is shown in profile. She is holding a black pipette in her right hand and a clear Erlenmeyer flask containing a red liquid in her left hand. She is standing outdoors next to a body of water that is heavily polluted with a thick layer of orange-brown sludge. In the background, there are industrial buildings and utility poles under a clear blue sky.
