

Alphabetical Directory

Of All Graduates of the School of Law

(And also many other Sooner graduates now in the legal profession)

NOTE: The first numerals after each name, if not qualified, indicate the year of graduation from the School of Law. If the numeral is followed by "ex" it means the person is a former student now in the legal profession. If "BA" or other letters indicating a degree follow the numeral it means the person is a graduate of some other division of the University than the Law School, but is now in the legal profession. Occupational information is not given unless the person is known to be engaged in something else than the practice of law. All cities are in Oklahoma unless the name of some other state is indicated.
