This Directory includes all graduates of the College of Business Administration of the University of Oklahoma. The first numerals after each name refer to the year in which a Bachelor's degree in Business Administration was received. The abbreviation "m.ba" means Master's Degree in Business Administration. If no address is given after a name in the Alphabetical List, it means that mail was returned as undeliverable from the last address on record in the Alumni Office and that repeated inquiries failed to secure the new address. In some cases where an alumnus has been called to military service, both the home address and the military station are given. *Sooner Magazine* readers are urgently requested to notify the Alumni Office of any errors noted in this Directory, so that the records can be corrected immediately.
