

Announcing a New

# COMMEMORATIVE PLATE

Celebrating the Fiftieth Anniversary of the

## UNIVERSITY OF OKLAHOMA

Here they are . . . beautiful semi-porcelain (not pottery) with a highly attractive glaze. The panoramic view of the O.U. campus is under the glaze and will not wear off.

Plates have the dates of the founding of the University and the fiftieth anniversary. They are of great interest to graduates for a memento of their college days and a tribute to the University of Oklahoma.

Regular 10½" dinner size, suitable either for table service or decoration. Because of a limited supply, plate collectors predict these will be much sought after. The present supply is all that will be made.

Illustration shows color of the plates. The attractive art work was sketched by a native Oklahoma artist exclusively for the Varsity Book Shop. Plates were made by the famous Vernon Kilns, Los Angeles.

*Take the Atmosphere of O. U. Into Your Home*

Every Student and Graduate of the University Will Want One of These Plates—A Reminder and Memento of Their University.
