LT. COL. W. H. AMSPACHER, '36med, Norman, letter of commendation for excellence of work in caring for wounded during first hostilities in North Africa.

Key to Service List Abbreviations

Included in the list of Sooners with the armed forces are names of more than 4,000 alumni, with years of attendance at the University, rank and branch of service and post of duty. Promotions and frequent changes in addresses of servicemen prevent publication of a completely accurate list, but corrections were made as fast as they came in until late January. SOONER MAGAZINE would appreciate receiving information about alumni in service whose names do not appear or whose addresses or rank have changed recently.

For translation of the abbreviations used in the service list, consult the following key:

Alumna Composes for WAACS

Lt. Ruby Jane Douglass, '39fa, Oklahoma City, composer of the song *The WAAC IS in Back of You*, last month was in New York City to arrange for the publishing of the composition. The alumna WAAC's song has already been broadcast over the radio and she hopes it will become the official song of the Women's Army. Lieutenant Douglass also has written *There'll Be a New Style Bonnet in the Easter Parade* and *Something New Has Been Added to the Army*. Both will be included in the WAAC show expected to open around March 1. Before going into service, Lieutenant Douglass was vocal music supervisor in the Bristow public schools.

Heroism Brings Unique Award

Beside the Distinguished Service Cross which he won for heroism while piloting a bomber over occupied Holland, Maj. Clark Kegelman, '34-'36, El Reno, wears a blue enamel medal which came to him as further tribute for gallant action. The medal was one of fourteen made by a wealthy French manufacturer to present to the members of a British squadron which had fought in defense of his country.

As one of the British pilots died in combat, only thirteen of the medals were presented and the one remaining decoration was sent to England to be kept by Royal Air Force officers until a man worthy to receive it was found. Major Kegelman was chosen to receive the blue medal after reports reached the R.A.F. of his miraculous aerial feats during a bombing raid on Nazi airdromes in Holland last July.

Sooner Pilot in WAFS

The first Oklahoma woman to be accepted as a pilot in the Women's Auxiliary Ferry Squadron, better known as the WAFS, is Margaret Ann Hamilton, '36-'38, Tulsa. Miss Hamilton took Civilian Pilot Training at the University of Tulsa in 1941 and has since been active there in the local Women's Air Corps and the Civil Air Patrol.

She expected to begin four-months' training under Jacqueline Cochran in Houston, Texas, in December, before assignment to ferrying duties by Nancy Harkness Love, director of the WAFS. In this recently organized auxiliary service, women pilots are to ferry planes from factories to dispersal pools, relieving men for active duty. Miss Hamilton was formerly employed as a secretary in the Douglas Aircraft plant in Tulsa.

Mail from Sooners All Over

Every day's mail brings something new and different in frontline communications from scattered Sooners in service to the Alumni Office and *Sooner Magazine*.

From the South Pacific came a subscription to the magazine from Lt. Donald D. Walker, '35-'38, Chickasha, who only recently read in his hometown newspaper that the subscription rate for servicemen was reduced. The item carried as a filler by the *Chickasha Star* last July 30 was returned to the Alumni Office by Lieutenant Walker as proof that news gets around even with war going on. Also involved in getting word to Lieutenant Walker about *Sooner Magazine's* reduced rate was the University Public Relations Office which sent out the original filler in a regular release to state newspapers almost a year ago.

From North Africa came a dizzy post card from Lt. George (Sailor) McDermitt, '42eng, bearing a picture of a couple of robed and bewhiskered individuals sitting cross-legged. "Here's a couple of old O. U. alumni. Tried to sell them a life membership (in the Alumni Association)," the '42 class president wrote, "but they said they already had one."

Sooner Officer Praises Troops

Company commander with the American forces in North Africa, Capt. C. W. Minton, '37bus, Maysville, was quoted in an Associated Press dispatch describing the remarkable energy and staying powers of U. S. soldiers on the march. "These boys could go thirty miles a day," Captain Minton stated. "I wouldn't trade my outfit for a division." The captain and his company were traveling with American forces through countries where salesmen on donkeys, camels and occasionally bicycles follow the troops peddling food, leather goods and native jewelry.
