

Calling the Roll of Sooner Classes

By ELAINE LARECY

~1906~

Word was received last month that Herbert A. Everest, '06bs, who has been confined to a wheel chair for a number of years, fractured a leg when he fell recently at his home in Los Angeles. Shortly after his graduation from the University, Mr. Everest's back was injured in a mine accident. In spite of the handicap he has built up a successful business in Los Angeles as a manufacturer of radios and lightweight collapsible wheelchairs which he invented and patented. For the information of friends who would like to write to Mr. Everest, his address is 1032 Ogden Road in Los Angeles.

Lack of scientific knowledge and intelligent planning were blamed for the lag in development of Oklahoma's industries recently by George C. Smith, '08ba, St. Louis, assistant to the president of the M. K. and T. Railroad. Appearing before a legislative committee in Oklahoma City, Mr. Smith pointed out that the state failed to get in on the synthetic rubber program and lost a big ammonium nitrate plant because of inadequate research, poorly organized data and failure to present Oklahoma's possibilities clearly to federal authorities. To remedy the situation, Mr. Smith suggested that Oklahoma tax laws be revised to attract more capital and that the job of industrializing the state not be left to local civic organizations.

Use the Union Cafeteria

By using the Union Cafeteria when visiting the campus, alumni can profit in several ways. First, there is a saving of gasoline and tires because of the central location of the Oklahoma Memorial Union. Second, alumni will probably find more old cronies gathered in the Cafeteria than in any other one place. Third, the Union Cafeteria continues to serve well-balanced, nourishing meals at a reasonable price despite the scarcity of some foods.
