Air Age Educators Speak at O.U.

Delegates attending the first annual Air Age Education conference at the University of Oklahoma on April 11-12 heard Philip S. Hopkins, nationally recognized authority on aerial education, discuss "Current Air Age Education in Colleges" and "Training Needs of Teachers." The meet was held on the North Campus.

Aviation programs for state high schools and colleges were mapped during the two-day session. In addition, exhibits of air education, materials and films were shown and working models of important airplane mechanisms were displayed.

Dr. William F. Ogburn, professor of sociology on leave from Chicago University now doing research work at Louisiana State University spoke on "Predicting the Social Implication of Human Flight."

Other speakers on the program included Col. Bennett Griffin, pioneer Oklahoma aviator of the C.A.A. standardization school, Will Rogers Field, Oklahoma City; John W. Patterson, regional director of education for C.A.A., Kansas City; Nickolaus Englehardt, Jr., director of Air Age Education research, New York City; Dr. Frank Sorenson, professor of education at the University of Nebraska, and Dr. S. E. Torsten Lund, professor of education at the University of Oklahoma.
