Kewpie Dolls Were Swiped

20 Years Ago

Norman tried to rival Pisa in 1929. It had its own leaning tower but through no fault of its own. Skeptics said it was merely another feature of a lean year. The north wall of the fine arts building was seriously undermined by recent heavy rains. A fifty-foot section of the wall leaned outward three inches from the foundation. It was hastily repaired.

Sooner editor of '29, Joseph Brandt, '21ba, made light of plans to widen Asp Avenue in Norman. Property owners objected to the widening because it would destroy many of the fine old trees. Brandt suggested: "Why not make Asp Avenue a sort of Champs Elysee, widening the avenue 12 feet and keeping the trees? Every alumnus of the University would regret to see these fine old trees destroyed. And why should they be? In Paris and Vienna, the trees are kept, the paving around them becoming islands. That's what Norman should do."

A crime note from '29—"Five kewpie dolls from the beautiful Kappa Kappa Gammias; One pair of suspenders from the diligent Phi Beta Deltas; One cowboy hat from the gallant Sigma Nus; One lumberjack from the Chesterfieldian Beta Theta Pis. These were items stolen from fraternity and sorority houses during the month of June. Two boys confessed to Norman police that they stole these and other articles in order that they might play pool from the proceeds. No books were reported stolen."

Cross Was Answered

10 Years Ago

Students were given a better than even break in telling at least one prof what they thought of him back in 1939. Dr. G. L. Cross, professor of botany (now president of the University) distributed questionnaires among the students which did not have to be signed. Some of the suggestions he received from the students were: "Do not beat around the bush and spend half the period telling about your Aunt Minnie, or when you were a boy." "A better text—not that I know of one." "A system of squelching those who annoy others by wanting to copy answers in lab."

The kind of a break that actors dream about came to Joe Callaway, '41drama, then assistant in drama in the University. He received a telegram from a Broadway director inviting him to New York immediately to begin rehearsals for a series of Shakespearian productions to be presented at the World's Fair that summer. He is now a teacher in Michigan State College, East Lansing, Michigan.

Mr. Lewis, Sr., had been admitted to practice before the Supreme Court in 1923. The Lewis family now lives in Washington, D. C.

The *Sooner Magazine* sports writers recalled for readers in 1939 the longest baseball game the University of Oklahoma ever played. Old timers may recall it. It was a 20 inning contest between the Sooner and Oklahoma Aggie teams on April 25, 1912, and ended in a 1 to 1 tie score. The last two innings were played in partial darkness with players seldom knowing where the ball was.

Skaters Get Boot

15 Years Ago

over Missouri tied a record set by Benny Owen's teams of the mid-teens).

3. Accepted a bowl bid. (They can have, if they win the rest of their games, a choice of top bowls except, of course, the Rose).

4. Placed one or two men on one or more All-American squads. (Walker and West appear the most likely with Owens, Royal and Thomas receiving mention).

5. Completely dominate the Big Seven All-Conference first team.

6. Gained the runner-up spot behind Notre Dame in the national ratings.

7. Have the coach of the year in Wilkinson.

8. Lead the nation in rushing and rushing defense.

That eight point program should be enough to warm an Oklahoma partisan's heart.
