

designed for modern living...

GAS the ideal fuel

Modern living means automatic living with GAS and modern GAS appliances.

From ranges with top burner heat control . . . to automatic furnaces . . .

today's gas appliances do more work with less supervision than ever before.

And modern gas appliances with their decorator colors and smart lines are

designed to please the eye—an important factor in today's homes where work

areas are living areas, too. All through the house, GAS is at your

service, waiting to work for you—automatically—at the flick of your finger.

For modern-as-tomorrow living, GAS is the ideal fuel.

GAS

the Ideal Fuel, heats your house, cooks your meals, dries your clothes, heats your water, preserves your food, burns your refuse . . . and air-conditions.
