president's message...

"Our Manners Are Showing" by John Muri, which appeared in the December 1972 issue of THEATRE ORGAN certainly is worthy of thorough study by all of us and could serve as an excellent guide in our relations with fellow ATOS members.

One point which was not covered is our association with owners or managers of buildings that house theatre organs. In the past there have been numerous occasions when a well-meaning individual has handled these relations in a manner that was thoughtless of the majority and which resulted in poor or negative relations between the person in control of the organ and ATOS. It is well known that this coin has two sides to it; but let us always strive to act in a manner that is beneficial to all and which will guarantee that the wrong side of the coin will not carry the letters ATOS.

Erwin A. Young, Jr.
