## Jet Lag!

Plan to arrive in London at least by the 19th, so that you can enjoy the first day of the convention without the annoying problem of jet lag.

# The Grand Finale!

ENGINES AND ORGANS

Silver ladies, flying horses, dragons, dancing figures and many organs and engines each evoking memories and visions of other worlds where craftsmanship and imagination have lifted the mundane into the marvellous.

Some of you may remember these gems, for others there will be the excitement of discovery. 'Victory' the giant Showman's engine built by Burrell's of Thetford, 17 tons of potent gold and maroon energy. The Marengi 98 key organ, made in 1905 and full of the Paris nightlife of its origin or the terrifying Wurlitzer theatre organ, with two rooms of pipes and a seemingly endless range of sounds, and many more marvels.

Here is a collection full of vigour and real enchantment, continuing a tradition of popular entertainment in which engineering and art have somehow touched generations of people.

It is no exaggeration to say that the museum is the most remarkable of its kind in the world, maintained and restored with enthusiasm to match the magic of the exhibits.

## THE THURSFORD COLLECTION INCLUDES

Wurlitzer theatre organ	Showman's engines
Fairground organs	Traction engines
Dance organs	Ploughing engines
Cafe organs	Steam wagons
Street organs	Steam rollers
Barrel organs	Stationary engines
Barrel pianos	Model engines
Miscellaneous	2 ft. gauge steam train
period objects	Farm machinery

Live steam rides and demonstrations
